FUTURA

Wood and Multi-fuel Stoves

# Tomorrow's stoves, here today

The culmination of over four decades of British engineering, the Futura range of woodburning and multi-fuel stoves represents the cutting edge in solid-fuel design. Offering a minimalist aesthetic and a touch of contemporary charm, these cheerful, vibrant stoves fit almost any interior. And with impressive, Ecodesign-exceeding efficiency ratings to match, **it's time to bring the future of fire to your living space!**

Thanks to their advanced convection systems and expansive front windows, Futura stoves pair high-performance heat with an unrivalled flame visual. Jets throughout the stove's advanced burn chamber channel vital air to key areas of the fire for maximum efficiency.

## Key Features

- Cast Iron & Heavy Gauge Steel
- Multi-fuel Models (with external riddling)
- Woodburning Models
- Cleanburn and Airwash Systems
- Convector Heat System
- Integrated External Air Connection
- DEFRA Exempt as Standard
- Top and Rear Flue Exits
- 5" Flue Diameter
- Matt Black Finish
- Suitable for 12mm Hearths\*  
\*Futura 4 & 5 only.

We are proud to have been recognised as an award-winning manufacturer, for our high-quality products and innovative technology. Find out more at [stovax.com/awards](https://stovax.com/awards)

*Futura 8 Woodburning, also shown on front cover*

# Now available in three distinct sizes!

Following the success of the Futura 5, we have extended this brilliant range to include two new sizes.

Just like the Futura 5, new 4 & 8 models feature integrated heat shields, reducing distance to combustibles and providing you with more options for installing your stove where you want it. And to allow you to heat rooms large or small, in urban and rural settings alike, these new additions to the range also benefit from being DEFRA exempt for Smoke Control Areas.

What's more, the stylish, stainless steel air control offers a quick start-up boost mode, allowing for effortless lighting and relighting. Combine this with a Futura's elegantly subtle curvature, and you're left with the perfect focal point for an impressive evening's entertainment, or cosy night in!

	Nominal Heat Output	Maximum Efficiency	Energy Class	Flame Viewing Area	Maximum Log Length
Futura 4, WB	4.0kW	80.9%	A+	251mm x 214mm	250mm
Futura 4, MF	4.1kW	80.8%*	A	251mm x 214mm	250mm
Futura 5, WB	5kW	82.7%	A+	366mm x 271mm	330mm
Futura 5, MF	5kW	82.0%*	A+	366mm x 271mm	330mm
Futura 8, WB	8.0kW	76.4%	A	447mm x 333mm	450mm

*\*Highest efficiencies achieved with smokeless mineral fuels  
Shown Above: Futura 4 Woodburning, shown with Claremont limestone mantel and London Cast Iron Front*

# External Air

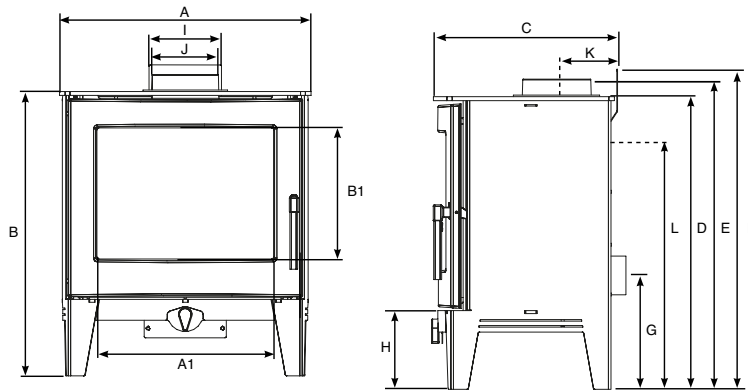

The Futura 4, 5, and 8 also come with an integrated, external air connection, allowing each stove to easily draw combustion air from outside your property, with only the use of a simple, optional pipe. Installations using these easy-install external air supplies negate the need for additional ventilation in your property.
